If it Catches You There  
"ANURIC"

Will Quickly  
Stop it!

Simply to realize the importance of the oncoming kidney trouble, by its first symptoms, backache or throbs through the kidney region, is money in one's pocket as well as years of sickness forestalled.

No organ of the body is more easily deranged than the kidneys. Day in and day out their action is constant, in separating poisonous matter from the blood. Most cases of kidney trouble may easily be overcome by merely taking hot water and a little "Anuric" before meals. Citizens daily voice their praise of the merits of "Anuric," the recent discovery of Doctor Pierce, of "Favorite Prescription" and "Golden Medical Discovery" fame.

For instance, here is a letter that of Mr. WALTER CARLSON, who says:

"I suffered for four years with pain in my back. I tried everything there was but they all failed to help me. I even went to a doctor and he could not cure my backache, said it was from the kidneys. A friend of mine advised me to try a box of Dr. Pierce's Anuric Tablets, and so I did. I used two boxes and the pains were gone. I am not telling any lie—the pain in my back was something terrible. As soon as I would bend over to get something from the floor I thought my whole back would burst.

"I would advise sufferers to try 'Anuric Tablets' and they will find results; they need not take my word for it."

NOTE:—Experiments at Dr. Pierce's Hospital for several years proved that "Anuric" is many times more potent than lithia in removing uric acid from the system.

Just ask for "Anuric" at druggists, or send Dr. Pierce 10c. for a trial package.

## PROBE PAPER COSTS; WASTE \$800,000 WORTH

Investigate Newspaper Prices but Drop  
Bill to Prevent Printing of Million  
Useless Documents.

There is little hope of enacting into a law at this session of Congress the printing reform bill which is designed to save the government \$800,000 a year, and prevent the printing each year of 1,000,000 useless documents.

While there is much agitation over saving newspaper paper, the government's printing waste threatens to go on unchecked. The parliamentary situation has entangled the bill in the House, and it is admitted that there is little chance of putting the bill through the Senate before adjournment because of the pressure of business there.

The opposition to the bill in both House and Senate arises out of the fact that some Senators and Representatives would prefer to have documents printed and distributed under the present wasteful system than to risk a change which might work injury to them in their districts. Members representing country districts might not be able to get so many "horse" books for distribution to their rural constituents, and so on.

## THREE U. S. CARDINALS AND ENVOY WILL MEET

Boston, Aug. 15.—Cardinal O'Connell, of this city, has announced his acceptance of an invitation to deliver an address next Sunday evening at the opening of the convention of the American Federation of Catholic Societies in New York.

This meeting will bring together for the first time on a public platform in this country, it is said, the three American Cardinals—Farley, Gibbons and O'Connell—and the Papal Delegate, Archbishop Bonzano, of Washington.

## WILL NOT OPPOSE HER MILLIONAIRE HUSBAND

Mrs. Hoe, Wife of Wealthy Press Man-  
ufacturer, Doing Nothing to Pre-  
vent Reno Divorce.

Special to The Washington Herald.  
New York, Aug. 15.—Mrs. Ethel Louise Dodd Hoe said at her summer home in Amagansett, L. I., today that she will not fight the divorce suit which, she admitted, her husband, Robert Hoe, son and heir of the late manufacturer of printing presses, is preparing to bring against her in Reno, Nev. Mrs. Hoe denied reports that she intended to press for a big settlement, if her husband is successful.

"I wish you would merely print the fact that Mr. Hoe is in Reno, and that I am doing nothing in the matter," said Mrs. Hoe, who declined to discuss the differences which led to the separation. Hoe has four months to wait in Reno before starting action.

Hoe is a son of the late Robert Hoe, who died in 1909 in London and left an estate worth \$3,314,019. The son received a bequest of \$1,135,445, as well as an interest in the immense printing press business which his father established. Hoe is a Harvard man. He was married to the wife he is now preparing to sue on November 2, 1908. She was Miss Ethel Louise Dodd, daughter of the Rev. Ira S. Dodd, pastor of a Presbyterian Church in Riverdale, N. Y.

## TORPEDO CATCHER MAY PUT END TO SUBMARINE

New London, Conn., Aug. 15.—A new "torpedo catcher" to be tested officially by the United States authorities arrived here yesterday from Bridgeport and was towed to the torpedo station at Newport.

The torpedo catcher was invented by Fred Lapan, of Milford, Conn., and is reported to be the only successful one of its kind. Its use by the United States government seems assured. The inventor asserts it will absolutely protect ships from damage by torpedoes. It will be used also for saving torpedoes during practice.
